Tutoring Center Appointment Reminders:

- **Students are responsible for managing their appointments online at www.capecod.edu/web/tutoring.** You can book, cancel, or review your scheduled appointments online. Detailed instructions on how to use the TimeTrade appointment system are on the other side of this sheet. Please ask for assistance if you cannot find an appointment that fits your needs.
- **Cancellations require 24 hours' notice.** If you are a no-show for 2 appointments or have 3 cancellations without 24 hours' notice, you will be restricted to drop in appointments based on availability for the rest of the semester.
- **Students are allowed one hour of tutoring per week per course.** Any appointments over this limit will be cancelled by the Tutoring Center. Extra help is available for writing, math, and biology in the appropriate Drop In Center: Reading and Writing Center, the Math Learning Center, or Science Lab. Please check the Academic Support Flyer for specific hours of operation.
- **Students are able to have 3 weeks of appointments scheduled at a time.** The system allows access to three weeks from the current date. You are never guaranteed to have the same timeslot or tutor for every visit, but rebooking weekly and maintaining three weeks of scheduled appointments gives you the best chance of this.
- **The Tutoring Center uses your student email account to communicate information** about your appointments. If the Tutoring Center needs to make changes and/or cancel your appointment due to unforeseen circumstances such as a tutor calling in sick, you will be notified through your student email account as soon as possible.
