Barbara Murphy
Nursing Program Coordinator
Cape Cod Community College
2240 Iyannough Rd.
West Barnstable, MA 02668

Dear Ms. Murphy:

Thank you for your continued interest in partnering with the University of Wisconsin Green Bay (UW-Green Bay) Professional Program in Nursing to provide an opportunity for your students to complete a baccalaureate degree in nursing through our BSN-LINC National Online RN to BSN Program.

Students who have earned an Associate of Science Degree in Nursing from Cape Cod Community College (CCCC) (as verified by an official transcript) are eligible to apply for admission to UW-Green Bay's BSN-LINC Program. All students seeking admission to the UW-Green Bay's BSN-LINC Program must first apply and be admitted to UW-Green Bay. Students will be subject to the UW-Green Bay baccalaureate degree requirements in effect at the time of matriculation into UW-Green Bay. In addition, applicants must have earned a grade point average of at least 2.5 upon the completion of their Associate Degree. (Note: Upon the recommendation of the UW-Green Bay nursing faculty, exceptions can be made.) Finally, students will need to show proof of RN licensure before they will be eligible to take upper level nursing courses.

The University of Wisconsin-Green Bay requires a minimum of 120 earned degree credits for a bachelor's degree in nursing. The minimum number of credits to be taken with UW-Green Bay is 30 credits including 15 credits in upper-level nursing. The UW-Green Bay requirements for graduation consist of 18 credits of general education, 12 credits of support courses for the nursing major and 30 credits of upper-level nursing courses. Following a review of your current Associate of Science Degree in Nursing program requirements, we have determined that graduates are eligible to transfer a minimum of 60 credits toward a BSN. Additionally, another 3 credits will transfer for a graduate having taken ENL 102 as part of the ADN and potentially 3 more will transfer for any graduate having taken a course on the attached CCCC to UW-Green Bay Equivalency Table in satisfying the CCCC General Education requirement.

We will permit CCCC Associate of Science Degree in Nursing graduates to transfer up to 30 additional credits of CCCC coursework (including ENL 102) to fulfill specific UW-Green Bay general education and nursing support course requirements for the BSN-LINC Program. This will leave the 30 upper-level nursing credits to take through UW-Green Bay's BSN-LINC National Online RN to BSN Program.

A listing of how an earned Associate of Science Degree in Nursing from CCCC and other CCCC courses satisfy UW-Green Bay's BSN-LINC degree requirements can be found in the attached CCCC to UW-Green Bay Equivalency Table.

The awarding of baccalaureate degree credit and satisfaction of requirements is subject to all UW-Green Bay and University of Wisconsin System policies. The Dean of Health, Education and Social Welfare will inform you, in writing, if there are policy, program or curricular changes that would impact your students' ability to enroll in and complete the BSN-LINC Program as described above. Any changes in your Associate of Science Degree in Nursing Program or other course requirements could also have an impact on the transferability of coursework or satisfaction of degree requirements, so please inform us immediately if any changes occur.

Assuming that the contents of this letter and the accompanying table meet with your approval, kindly reply with a letter accepting continuation of our partnership to the attention of Jan V. Malchow, Manager of Student Outreach, BSN-LINC Nursing Program at the address listed on this letterhead.

Sincerely,

A handwritten signature in cursive script that reads "Susan Gallagher-Lepak".

Susan Gallagher-Lepak
Dean of Health, Education & Social Welfare
